### HPL COLORS

(Garage Tops only)

- LAVA
- BLACK

**DRAWER BOX:** 5/8 BALTIC BIRCH, DOVETAIL, CLEAR LAQUER, 1/4 or 3/8 BOTTOM

## Product Knowledge

### Closet & Garage Accessories

Accessories limit you to specific sizes because you are dealing with pre-built units so you have to make your towers with the following inside dimensions and depths:

Widths	Depth
18	14
24	14
30	14

Regardless of the depth of your unit the chosen accessory will always be at that 14" depth and will be installed to the front of the tower and the back remaining depth is 'lost' space.

Certain pantry and garage accessories will have their own dimensions so when designing just double check your various dimensions to make sure they fit inside the towers.

### Core Product – Thermally Fused Laminate (TFL)

Used for: Gables, Shelves, 5 piece doors and Euro Flat Doors and Drawers

- Collins Particle Board – Western Pine with Color, surface, and core qualities are consistent from panel to panel
- Collins industrial particleboard is available FSC-certified (SCS-COC-00085)
- Collins Pine Particle board is CARB Exempt / NAF (no added formaldehyde), contains 100% post-industrial recycled & recovered fibers, and is moisture resistant.

Our 1mm laser edge banding gives the board longevity and eliminates the stress of the side edge banding from peeling off.

### High Gloss Panels:

Multiple lacquering and ultraviolet curing stages, under the strictest environmental conditions, ensures a beautiful, hard wearing, high gloss finish. Combined with match laser edge banding, our High Gloss presents the finest quality High Gloss Panel available today.

Pearl Grey	Quartz	Sahara	Bright White
Warm White	Hacienda Black	Magnolia	Carbon
Hacienda White	Red	Dark Olive	Black

\*Warm White 3D Edge Banding

## Doors & Drawers

### TFL and Thermofoil Doors and Drawers

Thermofoil doors and drawers are made using flexible vinyl material that is applied by heating the vinyl and molding it over medium-density fiberboard (MDF). The result is a cabinet profile with a smooth surface that resists chipping better than painted surfaces.

We color match our Thermofoil collection with our Thermally Fused Laminate (TFL) products. \_

Profiles	Colors	Colors	Colors
Euro Flat (TFL)	Antique White	Aria	Burcciato
	Charred Formwood	Chocolate Apple	Concrete Formwood
	Hacienda Black	Hard Rock Maple	Sandwood
	Tobacco Halifax Oak	White	White Ash

	White Ash		
Brooklyn Aluminum Frame			

## **Aluminum Frame Doors**

Our miter joints are tight and square giving the frame a high quality appearance. Available in four frames and five finishes, Brooklyn doors combined with our specialty glass, convey a classic contemporary style with European flair.

## **Deeply Textured Panels (M'décor & Kitsilano)**

The depth of detail combined with real wood veneers create an exceptional presence. The deep texturing plays off light and shadow to achieve a richness that other materials cannot equal. Cut to size and beautifully finished, these panels will elevate your project to a work of art. Typically made of waterproof fiberboard, these are then overlaid with paper, laminate or fabric of choice, resulting in a wide selection of colors, finishes, patterns, and motifs.

## **Deeply Textured Panels (Monaco)**

Originating from Europe, these contemporary styles are offered in a vast range from grunge to luxury. Monaco is available in both panel and inserts to compliment any project for your home, office, or entertainment area. Available in rolled sheets, dealers can cut to size and place them as "backing" to their closets and any area of the house

## **Glass & Acrylic Offerings (Valencia UV Embossed)**

The multi-layer UV embossing process creates texture and depth, imparting the panels with elegance and refinement. Available as inserts only, framed in contemporary aluminum profiles or framed in a selection of our shaker and mitered doors. Valencia is available in glass or acrylic so your options are limitless.

## **Glass & Acrylic Offerings (Venezia)**

Our Venezia decorative glass insert program is all about Italian style and flair. From animal skin prints to back-painted glass, there are designs to suit every taste. Available in our shaker and mitered doors, as part of our Brooklyn aluminum frame program or as glass only.

## **Baltic Birch Drawers**

Drawer Boxes – 5/8"

Bottoms are ¼" as standard and can be upgraded to 3/8" for bottoms of the drawers

## **Slides**

Under mount soft close slides (Standard)

Dust doesn't get in like side mount slides

Smoother operation
