

Product Knowledge

Closet & Garage Accessories

Accessories limit you to specific sizes because you are dealing with pre-built units so you have to make your towers with the following inside dimensions and depths:

Widths	Depth
18	14
24	14
30	14

Regardless of the depth of your unit the chosen accessory will always be at that 14” depth and will be installed to the front of the tower and the back remaining depth is ‘lost’ space.

Certain pantry and garage accessories will have their own dimensions so when designing just double check your various dimensions to make sure they fit inside the towers.

Core Product -- Thermally Fused Laminate (TFL)

Used for: Gables, Shelves, 5 piece doors and Euro Flat Doors & Drawers

- Collins Particle Board – Western Pine with Color, surface, and core qualities are consistent from panel to panel
- Collins industrial particleboard is available FSC-certified (SCS-COC-00085)
- Collins Pine Particleboard is CARB Exempt / NAF (no added formaldehyde), contains 100% post-industrial recycled & recovered fibers, and is moisture resistant.

Our 1 mm laser edge banding gives the board longevity and eliminates the stress of the side edge banding peeling off.

High Gloss Panels:

Multiple lacquering and ultraviolet curing stages, under the strictest environmental conditions, ensures a beautiful, hard wearing, high gloss finish. Combined with matching laser edge banding, our High Gloss presents the finest quality High Gloss Panel available today.

Doors & Drawers

TFL & Thermofoil Doors & Drawers

Thermofoil doors and drawers are made using flexible vinyl material that is applied by heating the vinyl and molding it over medium-density fiberboard (MDF). The result is a cabinet profile with a smooth surface that resists chipping better than painted surfaces.

We color match our Thermofoil collection with our Thermally Fused Laminate (TFL) products.

Profiles	Colors
Euro Flat (TFL)	Antique White Aria Burcciato Charred Formwood Chocolate Apple Concrete Formwood Hacienda Black Hard Rock Maple Sandwood Tobacco Halifax Oak White White Ash

Brooklyn Aluminum Frame	

Aluminum Frame Doors

Our miter joints are tight and square giving the frame a high quality appearance. Available in four frames and five finishes, Brooklyn doors combined with our specialty glass, convey a classic contemporary style with European flair.

Textured Panels

→ Monaco

Originating from Europe, these contemporary styles are offered in a vast range from grunge to luxury. Monaco is available in both panel and inserts to compliment any project for your home, office, or entertainment area. Available in rolled sheets, dealers can cut to size and place them as “backing” to their closets and any area of the house.

Glass Offerings

Valencia

The multi-layer UV embossing process creates texture and depth, imparting the panels with elegance and refinement. Available as inserts only, framed in contemporary aluminum profiles or framed in a selection of our shaker and mitered doors. Valencia is available in glass or acrylic so your options are limitless.

Venezia

Our Venezia decorative glass insert program is all about Italian style and flair. From animal skin prints to back-painted glass, there are designs to suit every taste. Available in our shaker and mitered doors, as part of our Brooklyn aluminum frame program or as glass only.
