

VENEZIA DECORATIVE GLASS PANELS (BACK LAMINATED AND TEXTURED GLASS) CARE AND CLEANING INSTRUCTIONS _____

Cleaning

Venezia glass should only be cleaned when cool to touch and should never be cleaned while in direct sunlight. Use a soft cloth and a solution of 1 part vinegar to 10 parts clean water, or Windex® Multi-Surface Cleaner (manufactured by SC Johnson and Son Pty Ltd) to remove dirt and grease. Wipe away immediately with a clean cloth using light pressure. Any stubborn dirt should be lightly sponged off, being careful not to scratch the glass. All traces of water and cleaning solution must be removed from the glass and frame.

Do not use metal scrapers, blades or steel wool on the glass surface. Avoid harsh household cleaners and abrasives. The following cleaning agents should not be used under any circumstances:

- Scouring and abrasive agents (abrasive powders, scouring pads, steel wool)
- Polish, washing powder, furniture cleaner, bleach
- Detergents with strong acids and acidic salts
- Steam cleaning equipment

Always check the active ingredients of your cleaners for potentially harmful chemicals. Do not use acetone, ammonia, amylacetate, benzene, butyl acetate, butyl alcohol, caustic soda, cellusolve, chlorinated solvents, chloroform, cresols/phenols, dichloromethane, ethylacetate, glacial acetate acid, halogenated solvents, methyl alcohol, methyl ethyl keytone, thinners, toluene, or xylene.
