

System Recommendations for Version 13

Actively Supported Operating Systems

PC Operating Systems (64 bit): Windows 11, Windows 10.

MAC: Apple Macintosh models (prior to new M1 chip) using Boot Camp. Please check with Apple to make sure it supports “Boot Camp”. Please note that at the moment, Bootcamp does not support Windows 11.

Recommended Hardware Specifications

Processor: i7 – 8th Generation (Quad Core) or AMD Ryzen7 models

System Memory: 16 GB RAM

Hard Drive: SSD with 20 GB free disk space for installation

Video Card: DirectX 11 compatible dedicated video card (such as GTX1080)

Notes:

- High-speed internet connection for updates and 2020 Cloud usage.
- Running 2020 Design Live Version in a virtual environment such as VMware or Parallels will impact rendering performance.
- Concerns have been identified with AMD Graphics Cards drivers throughout the course of last year. When acquiring a new system, you might want to consider other alternatives such as NVIDIA Graphics cards.
